**Attachments:** Sharma EES 2016 Cheyenne River U.pdf; SD Clean Water Alliance press release 09-22-16.pdf; Sharma EES 2015-Black Hills reservoir sediments.pdf

Thanks. Lisa will be helping me on some additional Qs and As on this for the public. Hopefully, I will know enough to be able to draft the As to her Qs!

Hi Douglas,  
Just FYI – the report wasn't attached by the time I got it, so I went to the source & got more info. No further action for now, but I will look into the info Dr. Stone sent me in the near future.

Valois – no problem, see attached. I'm glad Bob Wintergerst distributed my email. I've also attached another study that focused on most of the reservoirs in the Black Hills region. Our reservoir sampling procedures have been documented on my youtube page <https://www.youtube.com/watch?v=W68zi5jB7gg> and <https://www.youtube.com/watch?v=9Jl7m3ovK9w>. We focused on the deeper regions the reservoirs for that 2015 study. Please let me know if you or anyone from your office would like to discuss these studies further. Thanks. Jim

Hi Jim,  
Your email to Bob Wintergerst with your report on levels of uranium in Angostura reservoir sediments made it through an amazingly long email chain and finally reached me. But the report was no longer attached. Would you mind sending me the report, too, please?  
Thanks!
